

**Notification in Change of labeling for
Pilot 4E Chlorpyrifos Agriculture Insecticide
EPA Reg No.: 93182-7
Gharda Chemicals International Inc.**

This is clarification regarding amended labeling for Gharda's Pilot 4E Chlorpyrifos Agricultural Insecticide label.

A copy of the revised current and new labeling for Pilot 4E Chlorpyrifos Agricultural Insecticide (EPA Reg. No. 93182-7) is posted on this site. This Amended version of Gharda's Chlorpyrifos Pilot 4E Label supersedes any previous versions pending Reregistration Review at the EPA.

NOTICE OF LABEL DISCONTINUANCE

The next label printing of this product must use the new labeling with the effective EPA stamped approval date of **September 26, 2024**, unless subsequent changes have been approved by USEPA. In accordance with *40 CFR § 152.130(c)*, distribution and sales of the previous-current product under approved labeling until **April 30, 2025**. The current-previous label will then be placed in discontinuance and cannot be distributed or sold after that date.

End users for food crops can continue to use product carrying the discontinued label until June 30, 2025. Approved non-food crops can be utilized until existing stocks are exhausted.

NEW PILOT 4E LABEL

After **April 30, 2025**, you may only distribute or sell this product under the new Pilot 4E label. To "distribute or sell" is defined under *FIFRA section 2(gg)* and its implementing regulation at *40 CFR § 152.3*.

The major change to the new label removes all Agricultural Food Crop uses on the current EPA stamped Pilot 4E label dated December 20, 2012, except for 11 Food Crops and tobacco. (alfalfa, asparagus, citrus fruits, cotton, soybeans, sugar beets, strawberries, apples, cherries, peaches and wheat (spring/summer) identified by geographical restrictions put forth in the Chlorpyrifos PID

Note: *this label change does not include changes to any Non-Agricultural or non-food crop uses listed on the current Registered Pilot 4E label.*

Gharda's submission also Amends its label adding appropriate label language consistent with the Biological Opinion issued for the use of pesticide products by the National Fisheries Service on June 30, 2022. Storage and Disposal and Warranty information was also updated.

A copy of the current label and the new Pilot 4E Chlorpyrifos Agricultural label are posted here for reference and review.
